the green solution
ice melter with CMA

EnvironMelt

the green solution

ice melter with CMA

DOES NOT IRRITATE SKIN

Easy to use, no protective clothing necessary. Safer for children and pets.

LESS HARMFUL TO VEGETATION

Non-hygroscopic formulation. Limits damage to grass, trees or other vegetation.

NON TRACKING

Will not cause unsightly tracking or residue problems when used correctly.

LESS DAMAGE TO CONCRETE

Reduced damage to wood and concrete makes this one of the safest ice melters.

EASY DISPERSION

Extended shelf life.

REDUCED CORROSION TO METALS

Anti-corrosion agents reduce damage to vehicles, equipment and other metal surfaces.

Anti-Corrosion Formula

CMA (Calcium Magnesium Acetate), is an environmentally benign deicer. Where metal corrosion is a concern, EnvironMelt's special formula creates a bond between the surface area and the elements to protect against corrosion.

Fast Action

EnvironMelt combines the most effective deicing blend, creating the desired reaction to initiate deicing and meltdown. EnvironMelt breaks the bond between the ice and the surface area. As EnvironMelt goes to work, it's time-released formula stays on the surface area longer, helping to control the freeze-thaw cycle.

Health and Safety

EnvironMelt is safe to handle without protective clothing. It does not dry out or irritate the skin.

Non-Tracking

When properly dispensed, EnvironMelt minimizes tracking on floors and carpets.

Safer Ice Melter

EnvironMelt goes after the ice and snow clearing the way to safety. This specially formulated product contains "Dolomite" for added traction control, further enhancing performance.

Environmentally Formulated

Nature's own ingredients combine for just the right formula. Unlike some deicers, EnvironMelt works to preserve "Vegetation and Plant Life" when used as directed. With EnvironMelt, there is no slimy residue being tracked in, making clean up virtually non-existent.

Easily Dispersed & Extended Shelf Life

EnvironMelt is specially formulated with an anti-caking agent to allow for free-flowing dispersion.

Visually Measured

Not only will you see the quick action of EnvironMelt going to work on the snow and ice, specially coated with "GREEN MELT", this product will allow the precise spreading to ensure cost-effective dispersion.
