

Safer than Salt®

COMMERCIAL ICE MELTER

Unique formulation outperforms other ice melters.

Safer than Salt® Commercial Ice Melter is a proprietary formulation of fast-acting ingredients. The product is enhanced with magnesium chloride and CMA to help “jump start” the melting process. **Safer than Salt® Commercial Ice Melter will melt more snow and ice than most other products.** It works faster and at temperatures when many other products have stopped working.

Safer than Salt® Commercial Ice Melter is formulated to be seen when used. Most “white” ice melt products disappear into snow and ice. Users tend to over-apply, or worse, under-apply product because they can’t see where it lands. Additionally, in today’s litigation-driven society, Safer than Salt® Commercial Ice Melter provides users positive proof that an ice melter is in use.

Because Safer than Salt® Commercial Ice Melter melts more effectively than other products, a smaller quantity is needed to remove snow and ice, minimizing the environmental impact on grounds and vegetation.
